A friend, Mrs. Brown, of Orion, Mich., came to visit us. She had not been able to dress herself or comb her own hair for months. A friend of ours came in and seeing her suffering offered her some Dr. Miles' Anti-Pain She laughed at the idea of relief from such a source after doctoring for so long, but took one one of the tablets with the remark that it would at least do her no harm. She took another that evening, and the next morning she was so elated that she went to the druggist's and got a package and took them home with her. Recently she was here again, and told us that she continued taking the pills, and that one box cured her, and she has not had a symptom of rheumatism since."

body is busy.
At Phoenix the visitors were met by Profs, Clark and Wilson of the experiment farm and were shown many features of interest. They were driven to different stock farms and driven to different stock farms and viewed the herds of choice pure blood cattle and horses. The Indian school, ostrich farm and other places of interest were visited, as also was the weather station, where a fine view of the valley was had. The writer believes that there is no valley more heautiful in the entire west than the beautiful in the entire west than the Great Salt River valley, near the cen-ter of which beautiful Phoenix is located. The valley is fully 100 miles in extent each way, 125,000 acres of choice land being under cultivation, teeming with vegetation of all kinds. Grain here is ripening, alfalfa and hay is cut and being harvested, all man-ner of fruit trees and grape vines are laden with fruit, beet fields, melon patches, with thousands of acres of rich pasture, combine to make the most beautiful sight ever beheld. At Mesa City the visitors found the Saints rejoicing in their splendid pros-

pects and present good condition; everything seems to be on the up hill movement, and the people are hopeful and confident. The newly installed stake Presidency are the right men in the right places.

The old Zenos Co-op store, now Lesueur, Gibbons & Co., is a prosperous business; the building remodeled with an up to date bank on the corner,

stands out most prominent, while the many good business structures show a growing town. On a 20-acre field close to town President Lesueur is erecting a commodious residence, and in different portions of the city there are evidence of many improvements and new homes. The stake tabernacle has been painted and renovated, the grounds laid off and set in shrubs, grass and trees, and enclosed

with in iron fence. The beet sugar factory in the valley is rapidly reaching completion and will be ready for the crop when ready to planted and have now reached far be-

yond the experimental stage.

Another thousand acres of land is growing the "Rocky Ford" cantaloupe.

The Melon association is taking care of the planters and the planters are endeavoring to live up to the contracts entered into. Trainloads of the choicest kind of cantaloupes were shipped out of the valley last year. This, with the beet sugar and many other crops, seem

beet sugar and many other crops, seem to be an assured success.

The Tonto dam is being pushed forward, so that even if water was not so plentiful in its natural flow, there will be no more anxiety for the future welfare of the farmers. There is nothing but hopeful prospects before the settlers. The price of land is reasonable, and to those desiring a warm climate. Mesa and the surrounding val-ley offers splendid inducements. Think of living in a valley where fig trees are so common that they grow on the sidewalks for shade; where the date palm is a success; where you can produce the most delicious naval oranges advance of California, as the generally gone before the G State's crop comes in; where the lucious grape fruit and grapes and the olive

Stops Any Itching

Donn's Ointment Cures Eczema and Itching Piles.-Salt Lake City People Recommend It.

One application of Doan's Cintment stops any itching. Short treatment cures eczema, itching piles, salt rheum -any skin eruption or skin itching. It is the cheapest remedy to use, because so little of it is required to bring relief and a cure. Here is Salt Lake City testimony to prove it:

James L. Putchinson, retired, of 357 West Fifth South, says: "I have had attacks of itching hemorrholds, commonly known as piles, for seven years. In that time I can safely say I have used more than fifty different kinds of salves and ointments and I can also say that any benefit received from them was not permanent. Like a great many other preparations which I noticed advertised I came across Doan's Ointment and with every expectation that it would turn out as all others I had used I went to the F. J. Hill Drug Co's store for a box. Now it is over four months since I stopped using Doan's Ointment and there has not been a return of the old annoyance." For Sale by all dealers. Price 50 cents.

BIG RACING MEET AT BELMONT PARK

Nineteen Horses Are Carded in **Events Scheduled for** Today.

THE CLASSIC SPRING RACE.

Many Famous Horses Declared Out And Chance Left for New Stars To Show Themselves.

New York, May 9 .- Nineteen horses are carded to start in the Metropolitan han dicap, the first of the classic spring races at Belmont, tomorrow. The historic race at one mile will run over a heavy track. A steady rain today has made fast going practically an impossibility. The horses entered for the Metropolitan are somewhat disappointing, so far as class is concerned, many of the more famous racers of the east having been declared out on various accounts-Sysonby because of skin disease. Hermis because of lack of skin disease. Hermis because of lack of condition, and Delhi on account of the poor showing he has already made in his two appearances at the barrier.

Some of the better class of three-year-olds, which were expected to furnish the real contest, also are missing. Artnil, Hamburg Belle and Tradition are all eligible, and of any one of them should be added at the post, the race would be vastly improved. The Metropolitan this year will be worth nearly \$1,400, and tonight David C. Johnson's Roseben is made favorite by every racing expert, and he will be heavily played to win.

OWNER HAS FAITH. Roseben's decisive defeat in the Excelsior handicap has not shaken his owner's faith in him. His partialty for the Belmont track, where last year he won a world's record at six furlongs, and the fact that he can run just as well on a muddy track as a dry one, seems to make his chance stand out above the other contestants. r contestants. The light-weighted horses will be the

The light-weighted horses will be the troublesome factors in the race, and it is agreed that if Israfael and Grapple, the more likely contestants for first honors, go out to run with Roseben, the first half-mile they may take the heart out of the phenomenal sprinter. Israfael is one of the best handicappers shown this year and has been defested but once. He is fast and courageous, and will have the benefit of Miller's handling. Grapple, a John A. Boston, May 2.—Authority to resume the game of football at Harvard, which was ordered to be discontinued on account of the brutality of the game, was given this afternoon by a vote of the board of overseers of Harvard college, though the decision to permit the game was by no means unanimous. Nine members of the board, including President Charles W. Eliot, registered themselves as opposed to the continuance of football. The overseers in favor numbered fifteen.

Under the vote of today intercollegiate football is permitted at Harvard during the season of 1966, but not later than Dec. i. The game must be played under the new rules and upon such terms and conditions as the committee on the regulation of athletic sports shall consider advisable in order to test the propriety of continuing intercollegiate football in the future. This was the recommendation of the sub-committee of the overseers appointed to investigate and report on the football question.
